

Orphan Care Centers

General Supplies Wish List - 2017

Thank you for your willingness to consider joining us in providing for the needs of the 300+ infants and children who are cared for in our six Care Centers in China. Each child who comes into our care faces a wide range of very significant challenges due to their status as an orphan living with acute medical and/or special needs. With the loving day-to-day nurture and dedicated medical care provided to each child, there is great hope of not only survival, but of one day entering the love of a family through adoption.
